MUSIC FOR FUNERAL.

New York, Feb. 18.—The music of a little German band—somewhat out of tune and time—formed the opening incident of the funeral of Zoe Anderson Norris, a widely known writer and social worker of the east side, who died last Fridap after predicting her early death and publishing her own oblivary in a little magazine she edited.

If was one of the last wishes of Mrs. Norris that the German hand she used to hear in the court yard beneath her flat should furnish the music at her funeral.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in clog and thus the waste is retained in the blood to poison the entire system. When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four cunces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kid-Jad Salts; take a tubiespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, cambined with lithia, and has been used for generations to fush ard stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a deligniful effervescent thing, and nobody ran make a mistake by taking a little occasionality to keep the kidneys clean and active.—Advertisement

Two Hundred German Catholics May Locate in Valley; LeBaron Tells of Trip.

Awake to what has been called "the irgent necessity for bringing farmers into the El Paso valley," the El Paso hamber of commerce wired transportation and expenses Tuesday night to representative in Chicago of the Catholic Colonization society who will ome here and investigate conditions come here and investigate conditions with a view to colonizing 100 or 200 German-American farmers and their families on innd in the valley. This action was a result of the business men's meeting in the commerce building Tuesday afternoon, when George R. LeBaron reported the outcome of his recent trip to Chicago as a delegate from the chamber of commerce to interest colonists in this section of the country.

More Farmers Needed.

Discussion of the matter after Mr. LeRaron's address brought out some startling statements in regard to the sparsely settled condition of the valley cast and west of El Paso. Said L. M. Lawson, project engineer of the United States reclamation service at El Paso—"An irrigation project is never complete until all the territory it feeds is settled up and under cultivation. Within a year and one half, the Eliephant Butte dam will be finished and a complex irrigation system constructed throughout the valley. I need not say that you need more farmers out here. Few seem to realize the urgent necessity for getting this section settled up."

H. D. Camp, of Clint, had this to say: We need farmers out here to show is how to farm. Why, must of the andowners in the lower valley are naking a failure of their land, simply because they are not making enough profit to pay it out. I think we ought to get busy right away and see that the valley from end to end is put under cultivation. There is enough land to support thousands of small farmers and we have done very little to turn the structure of presenting colonists. attention of prospective colonists

Mr. LeBaron began by telling of the meeting of the colonization committee of the Catholic Colonization society in Chicago last week. According to the proposition made to him, between 2000 and 3000 acres of hand will be needed by the colonists. Their representative will come to El Paso and report on the feasibility of valley ground for farming purposes.

Facts and figures regarding briga-on facilities, productiveness of soil, rice of property, climate and various land must be all in one piece, or within a radius of two or three miles. It must cost between \$60 and \$100 an acre approximately. Two years must be given the colonia.
